

Regional Connectivity Committee Report for 2021 AGM, ACCofC May 31, 2021

The vision of this committee is to broaden our communication and connections amongst the communities of Albert County: from Alma to Elgin. We want to be better connected and informed of what is happening in Albert County overall, as well as be aware of individual community needs.

I've been in communication with the former *Community Strengthening initiative* based in Riverside-Albert. It was dissolved at the end of 2020 with hopes to regain traction in March 2021. There are currently no updates.

Conversations were had with the *Chipoudy Community Revitalization Committee* regarding their Welcome Committee. The Albert County Chamber of Commerce supported CCRC on the Welcoming Committee with our student Jacob Johnson and helped with research. We look forward to wirjubg across the region to welcome newcomers to the area.

I have met and am in conversation to further elevate the *Fundy Fresh* brand and product offerings within and beyond Albert County. Stay tuned for some great developments on this project.

Now that municipal election results are in, we will be able to continue and build on our growing relationships with *each municipality* within the county. We are very excited to welcome new and returning mayors, and to expand the growth and success in our region.

Thank you.
